WANT A CARNIVAL.

Meeting Held Last Week for the Purpose of Getting Sentiment of People.

A meeting was called last Thursday evening for the purpose of meeting a representative of the Hinz carnival company with a view to getting the sentiment of our people on the question of holding a carnival in this city.

Judging from the smallness of the meeting our people are not boiling over for a carnival, and very little interest seemed to be taken in the matter by the men of the city who would be especially benefited by an affair of this sort.

The Hinz carnival company are holding their show at Tomah this week, and the managers seem to think their carnival is a good one, as they offered to pay the fare of one or two of our citizens down to Tomah in order to have them look over the show so that they might decide whether it was a good one or not. The company has three free attractions of a spectacular nature which they have in operation during the day and evening, besides which there are a number of tent shows to which an admission is charged. The proposition made by the company was that they come here with their attractions and receive from the citizens the sum of \$500, and then they were to pay a certain percentage of their receipts to the citizens, which would assist in defraying the expenses that the citizens were put to. The way of it is that it might cost the citizens \$300, or if business was sufficiently good there might be enough money come in so that it would not cost them anything.

As to whether a carnival is a good thing for a town can hardly be told. Generally, whenever there has been a carnival held in a city it has been the verdict of the business men that it was no good. Then later on they hold another carnival, indicating that they had an idea that it was some good. It is probably like the Fourth of July celebrations and other things of that nature. They are all right and bring ample returns for the money invested, but just after they are over everybody is tired of street fairs and carnivals, and naturally never want to hear them mentioned again. After a time they forget the disagreeable features of the thing and conclude that it was a good thing after all, and decided to have another.

Just what will be done about the carnival business here cannot be said at the present time, as those who have been interviewed on the subject seem to be divided on the matter as to the benefits to be derived from one of the institutions.

Officers of the St. Paul road have announced that they will not run any more Sunday excursions over their road. This action was taken by the Northwestern people some time ago, and has been adhered to strictly since the inauguration of the order. One of the reasons given by the St. Paul people is that there was not much money in the excursion business anyway, and that if one man was hurt on one of the excursions it would cost more to fix up the loss than the season's earnings would amount to.

This is not the reason, however, why the excursion business should be discontinued. The fact that the excursion business keeps a large number of employees at work on Sunday, when every working man should be allowed to rest and recreate in some manner, is a better reason why the excursion business should be discontinued. Of course the Sunday excursion allowed many a working man to go somewhere and spend the day and probably see certain parts of the country that he would not otherwise be enabled to do, and no doubt many a person who attended the Sunday excursions felt that their money was well spent and were glad of the opportunity offered to get away from the every day scenes that went to make up their life.

Celebrated Golden Wedding.

Mr. and Mrs. S. C. Carrington celebrated their fiftieth wedding anniversary on Sunday last, and Mrs. C. M. Dougherty, in honor of the event, entertained the relatives of the interested parties.

Mr. and Mrs. Carrington were married in Alma, N. Y., on the 26th of June, 1855, where they resided until 1861, when they came to Wau-pun to live. They came to Grand Rapids in 1867, and have since resided here. Seven children were born to them, of this number six are still alive, Claude dying in 1900. Those living are Mrs. H. T. Panter and A. L. Carrington of Cripple Creek, Col., Mrs. W. S. Gardner of Prentice, Mrs. H. E. Pearson of Appleton, Mrs. C. M. Dougherty and J. H. Carrington of this city.

Both Mr. and Mrs. Carrington are enjoying good health at the present time, and have every chance of celebrating many more wedding anniversaries in years to come.

Fourth of July Picnic.

The members of the Polish Catholic church of the west side will hold a picnic on the afternoon and evening of July 4th at the John Tomczyk's grove five blocks west of the church. There will be dancing afternoon and evening. Refreshments and amusements of all kinds will be on hand. A cordial invitation is extended to the public to come and celebrate with them.

Building a New Town.

St. Cloud Daily Times.—The Northern Pacific has established a flag station for all local trains on paper mill of the Watab Pulp & Paper Company. A platform has been erected and the station will be known as Sartell being named in honor of Joseph B. Sartell, father of the well known lumberman by that name. Mr. William Sartell, who left the other day for Turtle, Minnesota, a son of the man after which the new station is named, was the first passenger to leave for the new station. The first passenger to arrive was George McMillan, one of the promoters of the company.

Secretary H. B. Corrievan has arrived and taken charge of the office of the Watab Pulp & Paper Company. The work of excavating for the hotel to be built by Sartell Bros. has been completed. The new hotel will be 35 by 61, two stories high. It will be steam heated and electric lighted. Its primary purpose is to afford accommodation for the men who will be engaged in construction of the dam and paper mill, and later for the employees of the company.

WAS A CLOSE CALL.

Fire at Dixon Hotel was Discovered in Time to Avert Serious Loss.

What would have undoubtedly been a serious conflagration occurred at the Dixon Hotel on Thursday evening had it not been for the fact that it started in the day time when the smoke was noticed by outsiders before it had made any headway.

The fire started between the ceiling of the third floor and the roof of the building, close to where some electric wires entered the building, and when noticed by passers by was sending forth quite a volume of smoke. An alarm was sounded at once, and several people went to the roof of the building where an investigation showed that the fire was confined to a small space and was evidently the result of a cross in the electric light wires.

A hole was cut thru the roof and the fire was extinguished by the application of a small amount of water. Both fire companies responded to the alarm that was sent in, and were on the ground in a short time. Two lines of hose were laid, and the fire was put out with as little water as possible, but of course it was impossible to keep from wetting things down a trifle in that vicinity, and a whole lot of water ran thru into the rooms below, where damage was caused. It is probable that the loss will run up in the neighborhood of \$500 when everything is straightened out.

Taken altogether it was a very lucky escape. Had the fire started later in the evening it is probable that it would have got quite a start before it was noticed when there might have been considerable difficulty in extinguishing the flames.

After the fire was put out it was discovered that two wires were crossed when the building was wired and these had come in contact causing the blaze.

Fatal Accidental Stevens Point.

Stevens Point Journal.—Leo Zelowski, the man in charge of the edger at the Clifford & Fox sawmill, met a very sudden death in the mill Thursday afternoon at 4:30. He was standing in front of his machine, engaged in the performance of his duties at the time. He had just shoved a small timber thru the machine from which the gang saws had cut off an edging on one side about the size of a 2x4. Just as the timber had passed thru the machine and this edging was about to fall over on its side, it, in falling, struck the teeth of an adjoining saw. It was caught and hurled back over his head with tremendous force. Being water soaked hemlock stuff it weighed between 50 and 100 pounds, and driven at a furious speed by the saw it acquired almost the energy of a cannon ball. The end of the 2x4 struck Mr. Zelowski in the pit of the stomach and knocked him backward on a little pile of chips and sawdust from whence he never moved. He never realized what happened him. To all appearances death was instantaneous.

The Fourth at Rudolph.

The citizens of Rudolph are preparing to celebrate the Fourth of July in grand style this year, and they have already started preparations for the event. Besides the usual Fourth of July attractions to be found at a first class celebration, they are also arranging several horse races to occur on the afternoon of that day, and as they have some fast horse flesh out that way, there is no reason why this part of the program should not be a winner. There will also be dancing afternoon and evening, and taken altogether it is expected that the day will be one to be long remembered in that section of the country.

Fourth of July Picnic.

The members of the Polish Catholic church of the west side will hold a picnic on the afternoon and evening of July 4th at the John Tomczyk's grove five blocks west of the church. There will be dancing afternoon and evening. Refreshments and amusements of all kinds will be on hand. A cordial invitation is extended to the public to come and celebrate with them.

COMMENCEMENT.

The Training School will Hold Their Exercises at the Lincoln High on Thursday.

The second annual commencement of the Wood County Teachers' Training school will occur at the Lincoln building on Thursday evening, June 23d, on which occasion a large class will be graduated from the institution.

A program has been prepared for the occasion, and a general invitation has been extended to the public to be present on the occasion. The following is the program:

Invocation Music Rev. Fred Staff
Greeting Music Arthur Johnson
Oration Carrie Evans
Oration Eva Blakeslee
Music
Address, The Most Efficient Means for Improvement of the Rural School—Supt. O. J. Kern, Winnebago Co., Ill.

Presentation of Diplomas W. D. Connor
The class colors this year are Cardinal and Champagne. The class flower is the red carnation and the class motto, "More Beyond".

Following is the class roll this year:
Alice Bazal, Arthur C. Johnson, Florelda Borg, Anna Johnson, Anna Blumhose, Elizabeth McCarthy, Eva J. Blakeslee, Anna Muehlstein, Edith Braderli, Maad Mulock, Anna Charnoy, Mary Olson, Laura Doy, Laura Potter, Edna Doy, Stella Potter, Ella Dougherty, Gertrude Potter, Mae Drager, William Slaven, Carrie Evans, Almeda Strick, Virginia Fiegel, Lottie Withers, Dora Thompson.

The popularity of the Wood County Training school has exceeded the most sanguine expectations of the projectors, and there has never been a time during the two years of its existence that there have been more applications for membership than there was room to accommodate, and the indications are that it will be the same in the future as it has in the past.

No doubt a part of this condition of affairs is due to the desire of our young teachers to better their condition both mentally and financially, and a part to the popularity of the two instructors who have had charge of the training school since it was started, namely, Prof. M. H. Jackson and Miss Etta Michaels.

Organize a Sportsman's Club.

Some of the citizens of Merrill have organized a Sportsman's club, the object of which is to see that the fish and game laws are properly enforced. It seems that there has been considerable trouble up in that country from people who pay no attention to the game laws, and whenever the notion happens to strike them have been in the habit of sneering game regardless of whether it is the open or closed season, and the members of the club just formed have made up their minds to stop the unlawful business. At a meeting held recently it was decided to offer a reward of fifty dollars to anyone who would furnish evidence that would lead to the conviction of any person who broke any of the provisions of the game law, such as using nets for the catching of trout, or dynamite, or the handling of deer, or the killing of deer out of season. By the means adopted it ought to be possible to effectually break up evil practices.

Arrange Future Work.

Prof. Whitson of the University of Wisconsin was in the city last Friday for the purpose of meeting the cranberry growers of this section with a view to mapping out some experimental work at the state experiment station. The state has made another appropriation covering a time of three years, so that it is known that the work that has been started can be carried on for three years yet, at least, at which time there may be another appropriation available. Both the professor and the cranberry men feel that the experiments have hardly been begun as yet, and that in order to accomplish anything definite it will be necessary to continue the work for many years to come.

Of Lowly Mind.

Some day there is going to be a terrible revolt in this country against the boiled revolt. We are not going to wear boards on our bosoms surmounted by picket fences when the laundryman feels cross and cuts a saw edge on our collars. American manhood is going to rise in its might some day and carefully drop the starched shirt over into the next lot, where the tin cans are. Today we have not the nerve to do it. We are under the domination of social and commercial propriety to such an extent that we do not dare to arise and proclaim our freedom of conscience. Some day we will wear soft shirts and flowing collars and the man who wears a starched board on his bosom and a sheet iron ring around his neck will be known for the conceited and artificial ass that he really is.—Lancaster Herald.

Broke a Rib.

Peter Brostowitz broke a rib on Monday while assisting at a barn raising at Steve Zurkowsky's place. A surgeon was summoned from this city who reduced the fracture, and Mr. Brostowitz has since been getting along all right.

Will Hold a Picnic.

The members of the Modern Brotherhood of America are preparing to hold a picnic at Thos. McGraw's place, north of Byron, on Sunday, June 26th, on which occasion it is expected that there will be a big time. The affair will take up the afternoon and evening, during which supper and other refreshments will be served. Music for the occasion will be furnished by the Grand Rapids band and there will be a society dance afternoon and evening. There will also be clay pigeon shooting in the afternoon. A number of boats will be on hand, so that those who care to can spend their time on the river. A cordial invitation is extended to the public to attend and participate in the good time that is sure to occur.

WANTED TO LOCATE.

Man From Milwaukee Thought Grand Rapids a Good Place for a Manufacturing Plant.

E. M. Schmidt of Milwaukee was in the city last week attempting to interest our citizens in a proposition to establish a wood working establishment in this place. He had been looking over the ground and came to the conclusion that Grand Rapids was about the proper place for a plant like he wanted to operate, so he laid the proposition before some of our business men.

He wanted to go into the manufacture of inside finish, bar furnishings, etc., and in order to do this he proposed to organize a stock company with a capital stock of \$25,000, and take ten per cent of the stock himself and allow some of our mounted men take the other ninety per cent.

A meeting was held one evening last week for the purpose of seeing what could be done in the matter, and the sentiment of those present seemed to be strongly in favor of putting up the plant. It was proposed that a subscription paper be passed around among our business men to see what could be done toward securing the necessary funds, and since the meeting this has been done, and up to the present time the projectors have met with fairly good success, although has not yet been secured to make the scheme a success.

It is said that the proposition is a good one as a large number of men are employed for the amount of money invested, and the establishment of the factory would be a good thing for the town.

Streets to be Renamed.

Alderman Mulroy, chairman of the street committee, reports that a meeting of the street committee was held Tuesday evening and that a method of naming the streets preparatory to free delivery was devised which in the opinion of the committee will solve some of the problems that have been confronting that body.

The scheme is to name all the streets of the city running north and south with numbers, commencing at the river and running east, while the streets running east and west will be allowed to retain the names they now have. All the streets on one side of the river will be odd numbers and the streets on the other side will be even numbers. The committee has only one difficulty to encounter in this work, and that is to decide whether a street runs east and west or north and south, some of them being so badly on the bias that it would be impossible to tell in which direction they were running.

The names of the streets will be put on newer pipes and the same set in cement on the street corners. The work of naming the streets and numbering the houses has been let to George Labrecque.

Looking for Games.

The Marshfield Elks' lodge has organized a baseball team and will arrange a schedule of games with Elks teams of the neighboring cities or other amateur teams for the present season. It is the aim of the promoters of the movement to put a uniformed team in the field and a strong array of has-beens is being lined up. It is possible that the Elks may get a team here for the fourth of July and there is talk of making that date an Elks' day and providing elaborate entertainment for visiting Elks and their friends.—Marshfield Times.

Pittsville will Celebrate.

The citizens of Pittsville are preparing for a grand celebration on the Fourth of July. The Woodmen will have charge of the affair and promise to have something out of the ordinary.

May Limit Policies.

Limiting of policies of insurance in the order to \$2,000 is one of the recommendations to be considered by the national camp of the Modern Woodmen at Milwaukee this week and the plan is of general interest to members. The present limit is \$5,000 but it is felt by members of the law committee that this amount is too high. The reduction would mean a big saving to the society in years to come and the law committee is anxious that their action be sanctioned. Several other important changes will be recommended, one being a change in the time of holding the head camp from two to four years.

If it is a new job of electrical wiring you need an old job you want us to inspect it. C. M. Dougherty, Tel. 164.

WE WILL CELEBRATE

Preparations Commenced for a Big Time in This City on the Fourth of July.

Grand Rapids will celebrate the glorious Fourth. It is a little late to make the announcement, but it is better late than never. The decision to observe the national holiday in a proper manner was arrived at on Monday evening at a meeting of the business men held at the city hall.

It was thought that there was not much enthusiasm on the question of holding a celebration this year, but when a meeting was called for Monday evening it was found that considerable interest was manifested, and there was a larger turnout than is usual on such occasions.

There was not a large crowd present, but the spirit seemed to be in favor of a celebration, and in order to see what those present would do in the matter the subscription paper was started right there, and when it had gone the round it was found that a total of \$110 had been subscribed, with no donation over \$10 in the whole lot. This was an encouraging, and there were such a lot of cheerful givers who were not present, that there was no hesitancy about going on with the work.

A committee on program consisting of L. M. Nash, M. J. Slaton, P. T. Davis, W. A. Brundt and Robert Rowland was appointed to prepare a program along this line. A committee for the purpose of purchasing supplies and soliciting aid was also appointed consisting of Sam Church, A. C. Otto and E. L. Stroh.

This completed the business so far as the meeting was concerned, but the soliciting committee got busy the first thing the following morning and made the rounds of the city, and with a few exceptions, cordially donated liberally to the enterprise, so that the matter of securing funds was a secured success from the first.

Just what the amusements of the day will consist of cannot be said at this time, but there will be an effort made to have the program as varied as possible. There will be an Indian trial parade in the morning, which will take up the greater part of the forenoon. In the afternoon it is expected that there can be arranged a number of races on the street, a bad lion procession, high dive and several other attractions of a spectacular character. A number of horse races are also being arranged for, and a baseball game will be played at the fair grounds for those who care for this kind of sport.

The program committee has decided to have at least four horse races that afternoon, three trotting races and one running race, and the prizes offered will be sufficient to induce those who care to take part in events of this sort to bring their horses to this city to compete.

Those who have been interviewed on the subject have expressed more than ordinary interest in the matter and have promised without exception to lend their best endeavors to making the day a success from every point of view.

Barn Burned at Hannen.

Charles Natwick of Hannen was in the city on Saturday, and reported that he had suffered the loss of his barn near Hannen the night before from lightning. The structure was 40x60 feet in size, and beside the loss of the barn there was a loss of four head of cattle that lost their lives in the fire. The loss on the barn is in the neighborhood of \$1,400, with an insurance of \$700. Mr. Natwick reports that had it not been for the heavy rain that followed the lightning, it might have been that his house would have been burned also, as the wind blew directly from the burning barn to the house.

Eberlus-Mansku.

On Wednesday afternoon, June 14th, occurred the marriage of Miss Lizette Mansku of this city to Gus Eberlus of the town of Marquette. Misses Tillie and Martha Mansku, sisters of the bride, acted in the capacity of bridesmaids, and Herman and Charles Eberlus were the groomsmen. After the ceremony a sumptuous repast was served to the guests and the evening was spent in playing games and kindred amusements.

The young people are well known here and have the best wishes of a host of friends. They will make their home in the town of Marquette.

Struck by Lightning.

Joseph Jueanu's house in the town of Rudolph was struck by lightning on Friday evening and the there was considerable damage done, the occupants of the building were not injured. It is reported that the bolt entered the house very near to where several members of the family were, but they escaped without injury.

Cuban Diarrhoea.

U. S. soldiers who served in Cuba during the Spanish war know what this disease is and that ordinary remedies have little more effect than so much water. Cuban diarrhoea is almost as severe and dangerous as a mild attack of cholera. There is one remedy, however, that can always be depended upon as will be seen by the following certificate from Mrs. Minnie Jacobs of Houston, Texas: "I hereby certify that Chamberlain's Colic, Cholera and Diarrhoea Remedy cured my husband of a severe attack of Cuban diarrhoea, which he brought home from Cuba. We had several doctors but they did him no good. One bottle of this remedy cured him, as our neighbors will testify. I thank God for so valuable a medicine." For sale by Duty Drug & Jewelry Co.

Chamberlain's
COLIC, CHOLERA AND
DIARRHOEA REMEDY

Every man of a family should keep this remedy in his home. Buy it now. It may save life.
Price, 25c. Large Size, 50c.

UNITED STATES ARMY AND NAVY IN MANEUVERS TO DEMONSTRATE EFFICIENCY

The scene of the army and navy exercises this year was Chesapeake bay, and, in a measure, the movement was to determine the value of the fortifications in preventing a foreign foe from making an attack upon Washington from the sea.

Officers in Command.
Rear Admiral P. W. Dickins was in command of the invading fleet, and the defensive works were commanded by Major General James P. Wade, commanding the department of the Atlantic, who had as his chief of staff Brigadier General Frederick D. Grant.

All the elements of actual warfare were not present, for, among other things, lacking was a defensive fleet, which, in the event of war, especially if it were believed Washington was to be directly menaced, would be floating in the waters of Hampton Roads. In actual war this fleet would be considered advisable to protect the large government navy yard at Norfolk, if for no other reason.

Rear Admiral Dickins had in his command a torpedo boat flotilla, under Commander M. Johnston; six third-class battleships, two cruisers and three converted yachts.

Nearly 10,000 Man Forts.
The fortifications in the three military districts, which comprise the defenses of Washington and Baltimore, were manned by nearly 10,000 men, more than half those in the fleet opposed to them. Seven forts were engaged in the war game; Fort Monroe, in the Chesapeake district, commanded by Lieut. Col. Ramsay D. Potts; Fort Washington and Fort Hunt, in the Potomac district, commanded by Col. Benjamin K. Roberts; and Forts Howard, Smallwood, Carroll and Armistead in the Baltimore dis-

trict, under the command of Col. Frank Throp. Artillerymen were collected from the post all along the Atlantic coast, and augmented by few, if any, state militia.

Preparations for Resistance.
In the fortifications the greatest preparations for the event were made, but for the most part the improvements made and the equipment installed are intended to be permanent. Within the last few months \$125,000 has been expended in the purchase and installation of the most complete telephone equipment which could be obtained. In time similar equipment will be in place in every military district on the coast to carry out the approved system of fire control. This is a most elaborate scheme of attack on an approaching enemy which cannot be seen by the gunners anywhere.

It is possible by this arrangement to direct the fire with effect, not only as to the time of discharging a gun, but in respect to range and direction of the shell. This mysterious factor is made possible by means of numerous instruments, miles of land wire and cable, and a comprehensive secret code.

Signal Service Complete.
The new portable searchlight for fortifications was another important feature which was tested under practical conditions of service. It was discovered in the maneuvers of two years ago that the gunfire of ships was directed with what would have been telling effect if the shots were read on account of the stability of the searchlights.

In the war game these lights did not remain in one place. They were mounted on wheels, and in that way their location was changed, in addition to which their removal from their destruction by a shot from the fleet. At Cape Hatteras, 115 miles south from the entrance to the Chesapeake, is a government wireless telegraph station, which also had its quiet part in the exercises. This agency, which was in communication with the forts, naturally endeavored to keep the army informed of the approach of the attacking fleet, and also attempted to "overhear" any wireless messages passing between the fleet and the other vessels in the fleet. Likewise the fleet tried to "tap" the wireless messages passing between the commanders of the artillery districts.

Fort Monroe Chief Point.
Fort Monroe, at the mouth of the James river, which commands the entrance to the Chesapeake, was the most critical point in the war game. Although Major General Wade's headquarters were movable, it was at Fort Monroe where the headquarters flag first flew. The fortress is a very difficult defense from what it was even so late as the Spanish war. Very considerable improvements have been made to it, and its battery of great

blind the navigators as well as the gunners.

To render this exercise the more effective, the ships of the squadron were painted four colors: The Texas, New York, Alabama, and Oregon, were painted black, and the torpedo boat destroyers, dark green.

The object of each of several forms of attack by the navy was to demonstrate the strength or weakness of some particular phase of the defense. The results were known only at the conclusion of the exercises, and those known only to the proper authorities. This precaution was emphasized as important, that the character and strength of the various defenses might not become known to possible enemies of the country.

Oldest Judge in Active Service.
Judge Charles Field of Alton, Mass., is ninety years old. He is in active service, holding court in the first district court of northern Worcester, at both Alton and Gardner, several days each week. While, naturally, his health is not quite as robust as ten years ago, he is still vigorous enough to administer justice in the two courts. Judge Field is said to be the oldest judge in the country in active judicial service.

Keeps Important State Records.
Gov. Warfield of Maryland has had made a large scrapbook of newspaper clippings on the death of Lloyd Lowndes of his state, to be filed in the state archives at Annapolis. He believes it is the first time that any history of the death of a governor of Maryland has ever been compiled and it is proposed to take care of predecessors and trust that my example may be followed by my successors.

Peculiar Case of Smuggling.
A smuggling case which is probably unique, even in the strange annals of contraband, has just been before the customs court of Maryland. On board a schooner, the "Toucan," there was found a large quantity of opium smuggled, not by any individual in particular, but by the whole ship's company, and the strange spectacle was witnessed of the heavy fine of \$2,000 being levied on all, every man in the vessel being mulcted in his proportion, assessed according to wages.

Dowries for French Girls.
A recent writer says of the commercial side of matrimony in France: "In most French marriages money is the most important part. The first question asked by the young man is 'How much?' As a rule, it is an easy matter to ascertain without applying directly to the papa, but even when no question of dowry is raised at the formal demand there is always a contract, drawn up by a notary, which specifies the exact sum the girl receives."

Triumph of Self-Made Man.
Wm. Watt, who has been appointed director of the Dusseldorf Science and Art Institute, is the second son of a blacksmith of Port Glasgow, Scotland. Starting with no advantage of birth or money or influence, he has largely educated himself. He is 32 years old.

Boer War Frauds.
A London paper alleges that the government has lost \$5,000,000 by reason of frauds in military stores in the Boer war.

Deaths From Plague.
In 1903 the number of deaths from plague in India was 853,000; in 1904 it was 1,040,000.

Gigantic Lily.
A gigantic lily, the phloxium tenax, is a valuable plant, peculiar to New Zealand. Its leaves are nine or ten feet long.

Descendant of Great Admiral.
Earl Nelson, who is in his eighty-second year, is the only living peer who was a member of the house of lords when Queen Victoria came to the throne. His lordship is not a direct descendant of the great Lord Nelson, who left no sons, but is a grandson of his sister, Mrs. Bolton.

Hawk the Prey of the Weasel.
A New Zealand paper relates that a settler noticed a hawk flying about in a peculiar manner and crying out as if in pain. The settler obtained a gun and shot the bird and investigation showed the cause of its distress was a weasel which was perched on the hawk's back, with its teeth buried in the bird's neck. Apparently the animal had pounced upon the hawk when it was on the ground and was carried skyward with the flight of its prey.

Great Singer's Tomb Prepared.
Mme. Emma Calve, the famous singer, is one of those people who like to have their tombs ready for them in case anything should happen. Some four years ago the great singer, who was caught in the same trap, a well-known French sculptor, to prepare a design for her monument, and though at first he thought she was in jest and hesitated to begin the work, he soon found she was in earnest. He set to work, therefore, and modeled a sketch.

Philadelphia's Shame.
A recent investigation shows that most if not all of the Philadelphia aldermen involved in the recent scandal were native Americans, whose grandparents had been citizens of the United States. The only foreign-born man of prominence in the proceedings was Mayor Weaver, who protected the city.

Philadelphians' Shame.
A recent investigation shows that most if not all of the Philadelphia aldermen involved in the recent scandal were native Americans, whose grandparents had been citizens of the United States. The only foreign-born man of prominence in the proceedings was Mayor Weaver, who protected the city.

A recent investigation shows that most if not all of the Philadelphia aldermen involved in the recent scandal were native Americans, whose grandparents had been citizens of the United States. The only foreign-born man of prominence in the proceedings was Mayor Weaver, who protected the city.

Philadelphians' Shame.

could not in any even risk grounding in order to pass the upper forts.

Defense of the Cities.
Washington is about 17 miles from Fort Monroe, Baltimore is about 100 miles from the entrance to the Chesapeake. Defending Washington are Forts Washington and Hunt, on either side of the Potomac, about twelve miles below the national capital. Baltimore is defended by Fort Carroll, which is on a small island in the Patuxent river, about seven miles below the city, and on the west bank of the river, nearly opposite, lies Fort Smallwood. About four miles below them are Fort Howard, on North Point, and Fort Armistead, nearly opposite, both guarding the entrance to the river from the bay.

The Game of War.
Only the destroyers and smaller boats attempted to pass these fortifications, and choose the light for the work. It has been a usual belief of war that their specialty that ships can rarely be pitted against fortifications with success. And it has been found in practice in recent years that the damage done on either side during such an engagement is very small indeed, although a chance exists from a fort would work more damage to a ship in harbor than on either side during a modern fortress.

The night attacks were to ascertain the efficiency of the searchlights of the fortifications and also to give the navy exercise in constructively making these lights dark. Actual experience has demonstrated that it is most difficult to hit a searchlight, and, incidentally, most difficult to navigate a ship on which a searchlight has been turned, the effect of the light being to

To Limit Right to Vote.
After 1912 all male residents of Wisconsin after the age of 21 years who have failed to become full citizens, will be excluded from holding office and from voting. This resulted from the senate action in reconsidering the vote by which this constitutional amendment was refused submission to the people. The resolution provides for an amendment to section 3 of the constitution relating to suffrage, and provides that where second papers have not been obtained, and full citizenship secured, such persons shall be ineligible to the rights of full citizenship. Senator Rohr made a brief address in favor of the amendment, reading a letter from Clark of Court, Wisconsin, showing the need of the amendment. The resolution was passed by a vote of 20 for and 8 against. Senators Hutton, Knutson, Morris, Sanborn, Smith, Wipperfurth, Wolf and Wright voting against the resolution.

Refuse to Pay Political Debt.
The assembly refused to concur in the senate bill appropriating state money for paying Attorneys R. M. Bashford and John Barnes for their services in the political suit last summer. The vote was close, 35 to 34. Mr. Potts, the democratic leader, opposed the bill, and Mr. Ekers favored it. Mr. Potts characterized it as the "most disgraceful piece of legislation ever heard of. How any person could have the gall to introduce such a measure" was beyond his understanding, he said. It would be just as fair to appropriate \$5,000 to each of the ten lawyers who drafted the democratic state platform at Oshkosh last year. To render this exercise the more effective, the ships of the squadron were painted four colors: The Texas, New York, Alabama, and Oregon, were painted black, and the torpedo boat destroyers, dark green.

The object of each of several forms of attack by the navy was to demonstrate the strength or weakness of some particular phase of the defense. The results were known only at the conclusion of the exercises, and those known only to the proper authorities. This precaution was emphasized as important, that the character and strength of the various defenses might not become known to possible enemies of the country.

Oldest Judge in Active Service.
Judge Charles Field of Alton, Mass., is ninety years old. He is in active service, holding court in the first district court of northern Worcester, at both Alton and Gardner, several days each week. While, naturally, his health is not quite as robust as ten years ago, he is still vigorous enough to administer justice in the two courts. Judge Field is said to be the oldest judge in the country in active judicial service.

Keeps Important State Records.
Gov. Warfield of Maryland has had made a large scrapbook of newspaper clippings on the death of Lloyd Lowndes of his state, to be filed in the state archives at Annapolis. He believes it is the first time that any history of the death of a governor of Maryland has ever been compiled and it is proposed to take care of predecessors and trust that my example may be followed by my successors.

Peculiar Case of Smuggling.
A smuggling case which is probably unique, even in the strange annals of contraband, has just been before the customs court of Maryland. On board a schooner, the "Toucan," there was found a large quantity of opium smuggled, not by any individual in particular, but by the whole ship's company, and the strange spectacle was witnessed of the heavy fine of \$2,000 being levied on all, every man in the vessel being mulcted in his proportion, assessed according to wages.

Dowries for French Girls.
A recent writer says of the commercial side of matrimony in France: "In most French marriages money is the most important part. The first question asked by the young man is 'How much?' As a rule, it is an easy matter to ascertain without applying directly to the papa, but even when no question of dowry is raised at the formal demand there is always a contract, drawn up by a notary, which specifies the exact sum the girl receives."

Triumph of Self-Made Man.
Wm. Watt, who has been appointed director of the Dusseldorf Science and Art Institute, is the second son of a blacksmith of Port Glasgow, Scotland. Starting with no advantage of birth or money or influence, he has largely educated himself. He is 32 years old.

Boer War Frauds.
A London paper alleges that the government has lost \$5,000,000 by reason of frauds in military stores in the Boer war.

Deaths From Plague.
In 1903 the number of deaths from plague in India was 853,000; in 1904 it was 1,040,000.

Gigantic Lily.
A gigantic lily, the phloxium tenax, is a valuable plant, peculiar to New Zealand. Its leaves are nine or ten feet long.

Descendant of Great Admiral.
Earl Nelson, who is in his eighty-second year, is the only living peer who was a member of the house of lords when Queen Victoria came to the throne. His lordship is not a direct descendant of the great Lord Nelson, who left no sons, but is a grandson of his sister, Mrs. Bolton.

Hawk the Prey of the Weasel.
A New Zealand paper relates that a settler noticed a hawk flying about in a peculiar manner and crying out as if in pain. The settler obtained a gun and shot the bird and investigation showed the cause of its distress was a weasel which was perched on the hawk's back, with its teeth buried in the bird's neck. Apparently the animal had pounced upon the hawk when it was on the ground and was carried skyward with the flight of its prey.

Great Singer's Tomb Prepared.
Mme. Emma Calve, the famous singer, is one of those people who like to have their tombs ready for them in case anything should happen. Some four years ago the great singer, who was caught in the same trap, a well-known French sculptor, to prepare a design for her monument, and though at first he thought she was in jest and hesitated to begin the work, he soon found she was in earnest. He set to work, therefore, and modeled a sketch.

Philadelphia's Shame.
A recent investigation shows that most if not all of the Philadelphia aldermen involved in the recent scandal were native Americans, whose grandparents had been citizens of the United States. The only foreign-born man of prominence in the proceedings was Mayor Weaver, who protected the city.

Wisconsin Legislature

MORTGAGE TAXATION.
The senate debated the mortgage taxation question, and after voting down the Merton amendment, refused to pass the original bill which provided for the exemption of mortgages from taxation as a distinct class of property for taxation purposes, and proposed a uniform tax of one-half per cent upon all such property. Senator Merton said that the plan of exempting mortgages from taxation in effect exempted the property of those best able to pay. He believed that mortgages were justly subject to taxation and enjoyed all the protection afforded to other property. He claimed that New York had adopted the plan proposed and strongly argued for the adoption of his amendment. Senators Hutton and Hudnall spoke in favor of the amendment and Senator Whitehead argued against changing and defended the views he has always strongly maintained in favor of exempting mortgages from taxation, and the establishment of a permanent legislative policy. Senator Bird gave a practical talk on the working of the present system. The Merton amendment was defeated by a vote of 13 for and 16 against, and the original bill was sent to the committee on finance.

Stout Salsoon Bill Passed.
The senate passed several important matters Monday night without debate, the program being followed as scheduled in the previous action of that body. The Stout 300-foot license bill was adopted; the bill authorizing the distributing of surplus to life insurance policy holders was passed and the bill of the house was ordered. The Stout bill was passed by a largely increased vote, and the result is a surprise. An effort was made to reconsider the vote by which the surplus distribution bill was passed, but the senate refused to take this action by a vote of 18 against and 11 for.

Saves Bill for State Asylum.
Mr. Coffland succeeded in saving his bill appropriating \$100,000 for the erection of a state asylum for the vicious and criminal insane. The bill was on the calendar for indefinite postponement, but the committee report was rejected by a vote of 48 to 22. The bill was then ordered engrossed and read a third time. Mr. Coffland wanted it passed on suspension of the rules, but there was objection. Mr. Coffland worked hard two years ago to get a similar bill through the legislature, but failed, the opposition winning out by a small margin.

Ready to Adjourn.
The Wisconsin legislature, after having been in session just two weeks, Wednesday night completed its work and will adjourn sine die as soon as the constitutional period given the governor for the extension of his term expires. This has been the longest session in the history of the state, and perhaps the most important in the way of the enactment of legislation respecting taxation and corporation regulation.

Retards Appropriations.
The assembly held a two-hour session Monday night, but was compelled to lay over all appropriation bills because of a lack of the presence of the required number of members. Among the bills laid over were those to pay Attorneys R. M. Bashford and John Barnes for their services, to increase the terms of insurance companies, and to make uniform the state aid to fair and agricultural associations.

More Time for Governor.
The senate amendment to the joint resolution providing for an amendment to the constitution to increase the number of days in which the governor shall have to consider bills after they have passed the house was concurred in. The resolution as first adopted by the assembly increased the number of days from three to ten.

No State Printing Plant.
As was expected, the senate refused to accept the assembly resolution calling for a constitutional amendment to permit the establishment of a state printing plant.

Kills Scale Rule Bill.
The scale rule bill of Henry Johnson was killed in the senate by a unanimous vote. The measure caused one of the hottest debates during the session.

Sustains Traction Veto.
The governor's veto of the bill to permit the Madison Traction company to place trolley poles within the capitol park was sustained by the assembly.

Hunt Rabbits With Ferrets.
The senate bill permitting the hunting of rabbits with ferrets in certain counties was ordered to third reading in the assembly.

Rural School Inspector.
The bill authorizing the appointment of an inspector of rural schools at \$2,000 a year was concurred in by the senate.

Advances Revision Measure.
The senate bill providing for a revision of the statutes was ordered engrossed and read a third time in the assembly.

May Change Text Books.
A bill was passed providing that school districts can change text books, limiting those changes to once in three years. The measure came from the senate committee on education and leaves the power in the school district boards.

Teachers' Training Schools.
The Stout bill increasing the limit of state aid to county training schools for teachers to \$2,500 a year was concurred in.

Kills Dam Building Bill.
The senate killed the blanket bill relating to the granting of franchises for the building of dams. This bill was prepared in pursuance to the governor's message, and by many of the senators was claimed unconstitutional.

Life Policy Tax.
The senate amendment to the bill providing for the taxation of life insurance premiums on their surrender value was concurred in. The amendment provides that the bill shall not apply to premiums heretofore issued.

Insurance Publication.
The substitute for the Smith bill regarding the publication of statements of the business of insurance companies operating in this state was concurred in without discussion by the assembly.

Two Measures Are Lost.
The senate refused to concur in the bill placing a woman on the board of control, and also nonconcurrent in the bill requiring railroads to furnish a list of all free transportation furnished.

Refuses to Change Date.
The bill changing the date for the opening of the fishing season in Dane county was killed in the senate.

Novelty for the Delectation of Amusement Seekers.
The miniature railway and the undulating merry-go-round have pulled upon the public amusement seeker, who is so fickle in his taste that he is ever craving novelties. Without much merit other than its novelty a St. Louis inventor proposes to combine the miniature railway with the merry-go-round or flying horses in one device, affording this class amusement park devotee a momentary sensation of a new kind. The carnival feature is mounted upon a truck, running upon tracks of some suitable type, and

Dam for the Delta.
When the Eau Claire Delta dam bill was reached Monday, Senator Wilcox introduced an amendment agreed to by all interested parties and for a few minutes it appeared as though this much debated and long deferred measure would finally be disposed of. Then Senator Noble sought to gain unanimous consent to introduce two amendments which were apparently not agreed upon and this produced objection on the part of Senators Wilcox and Stevens. Further consideration was deferred until night, when the bill was passed.

the city on Tuesday on business and
while here he favored the Tribune
office with a pleasant call.

Ed Pomerville, who is attending
the University of Wisconsin, is home
to spend the summer vacation with
his relatives in this city.

Miss Angelina Pauley has accepted
a position with Gaynor & Vaughan
as stenographer Miss Marceon having
decided to take a vacation.

Prof. P. L. Paase, formerly an
instructor in public schools, but
now of St. Louis, is visiting friends
in the city for a short time.

W. J. Hanky will hold a picnic
at his place on Sunday afternoon
and evening, June 25th. A fine
chicken chowder will be served.

Alex Bandelin of Chippewa Falls
was here several days this week
visiting his relatives and other friends.
He expects to leave for home today.

Miss Kate MacKercher, who has
been teaching in Baraboo the past
year, has returned to this city to
spend her vacation with her mother.

Mrs. Baulah Biron and Mrs. Wm.
Scott returned on Friday from Chicago,
where they had been visiting with
friends and relatives during the week.

—A good silk umbrella in red, blue
and black, only \$1.98. Heinemann
Merc. Co.

Miss Mabel Podawitz, a recent
graduate of the Grand Rapids Busi-
ness college, has accepted a position
as stenographer with City Clerk
Boles.

Liverman P. H. Davis has been
suffering greatly from rheumatism for
some time past, the result being that
at times he can hardly get around
at all.

—Our \$1.50 umbrellas only 90c.
Heinemann Merc. Co.

The Misses Beulah and Fern Miller
departed today for a visit in Milwau-
kee where they will spend two weeks
visiting their sister, Mrs. Geo. A.
Arnet.

John Krommacker, one of the
solid farmers of the town of Rudolph,
was a business visitor in the city on
Saturday. This office acknowledges
a pleasant call.

Frank Shobleska made a trip to
Green Bay on Sunday. He was ac-
companied home by his mother-in-
law, who will visit the family in this
city for a while.

George M. Slauson, agent for the
Cable company, has been in the city
the past week looking after the com-
pany's business interests in this
section of the country.

—You don't need to boil clothes or
rub them on the wash board as Gal-
vanic Soap will accomplish the work
while you sleep. Just leave the
clothes in suds to soak.

Marriage licenses have been issued
the past week to Margaret Smith and
Oscar Youngchild, both of Neenah,
and Margaret Raymond to Charles
Bodmer, both of this city.

Patrick Flanagan and son John of
Vesper were in the city on Tuesday
being on their way home from
Neenah, where they had been to at-
tend the funeral of a relative.

The tenth annual Saengerfest of
the North Wisconsin Saenger Club
will be held at Wausau June 23, 24
and 25. A large attendance is looked
for from all parts of the state.

Miss Bessie Gaynor, who has been
a student at the University of Wiscon-
sin during the past year, is home to
spend the vacation with her parents,
Mr. and Mrs. John A. Gaynor.

John Minta returned on Monday
from Nollerville where he has been
employed the past year and has again
taken his old position in the grocery
department of Johnson & Hill Co.

—Painting and paperhanging by
Nels Laramie. He is in the business
to stay and guarantee his work.
His prices are right. Let him figure
in your work. Phone 89.

In a recent canvass of the Grocers
of this town, nearly every one of
them mentioned the popularity of
Galvanic Soap. They say that every
woman that tries a cake of it be-
comes a steady customer.

Mrs. George E. Hoskinson enter-
tained a party of friends on Monday
evening in honor of her daughter,
Mrs. E. M. Platt. There were cards
and dancing and refreshments and a
very pleasant evening was spent.

Mr. and Mrs. A. C. Bennett, who
make their home at DeFonville Springs,
Fla., are guests at the home of their
son, A. E. Bennett, at Cranmoor.
They expect to spend the greater part
of the summer in this neighborhood.

Andrew Bissig of City Point was
in the city on Saturday on his way
to Milwaukee where he was going to
attend the convention of the Modern
Woodmen of America. He expected to
be gone about a week on the trip.

Dr. V. P. Norton returned on Sun-
day from Eagle River where he had
been called on some professional
business. While there he put in a
few hours fishing, and he reports that
the sport there is the best in the
land.

R. A. Weeks returned on Tuesday
from a business trip to Loyal and
Marshfield. The firm of Weeks &
Weeks recently erected a monument
at Carey, N. Y., for Mrs. J. D. Wittor
of this city, where that lady has some
relatives buried.

Dr. W. M. Rookle arrived in the
city from Chicago last week and has
associated himself with Humphrey &
Blanchard and will practice at River-
side hospital, where he will make a
specialty of the treatment of the eye,
ear, nose and throat.

A. S. Robinson left today for
Stevens Point, where he will visit a
day, and then go to Neenah for a
few days visit. Mr. Robinson
formerly lived at Neenah for some
twenty years, so that he has many
friends in that place.

The first full car load of wool ever
shipped from Wausau was sent out
last Thursday. The car contained
20,000 pounds, all of this spring's
shearing, and was valued at over
\$5,000; the most valuable car load of
freight ever shipped from that city.

The new paper mill at Merrill
was started up for the first time last
Wednesday for the purpose of trying
the machinery, and it is reported to
have worked in fine shape. It is ex-
pected that the new mill will be
turning out paper by the first of July.

A. H. Frick of Hudson, was in the
city last week and purchased the
photographic outfit of J. O. Hebert,
and will conduct the place in the fu-
ture. Mr. Frick is a first class work-
man and ought to succeed in his new
location.

Miss Elizabeth Rowland, who has
been teaching at Hewitt during the
past year, arrived in this city on Sat-
urday, having finished her duties up
there. She has not decided whether
she will accept the school there for
another year or not.

Ray Johnson, who has been attend-
ing college in Massachusetts near Bos-
ton during the past year, is home to
spend his vacation in this city. He
was accompanied here by Harold
Davis of Waterville, Maine, who
will visit here for a time.

The Boston Bloomer girls played a
game of baseball with the Stevens
Point team on Sunday and the game
resulted in a score of 15 to 1 in favor
of the Stevens Pointers. The Bloomer
girls were trying to make a date to
come to this city, but were unsuccess-
ful.

—For paper hanging, painting and
sign writing. See Louis and George
Labreche. Leave orders at Stebb
& Co's drug store.

Merrill Star.—Mrs. I. Putnam and
son departed yesterday morning for
Grand Rapids to visit her brother
for a few days, then go on to Rich-
land county, where they will attend
the wedding of Mrs. Putnam's sister,
and spend several weeks among rel-
atives.

I. P. Witter has recently received
a new saddle horse, which is a very
fine looking animal. Grand Rapids
people are getting quite a nice looking
lot of saddlers, and there is no doubt
but what some of the horseflesh here
is as good as any to be found in the
country.

Earl M. Pease of Richland Center,
has arrived in the city, having come
here to accept the position of cashier
in the First National bank. Mr.
Pease has been in the banking busi-
ness in his former home and is said
to be a man well qualified to fill the
position.

Mrs. F. A. Cady left last Wednes-
day for Delafield to attend the com-
mencement exercises of the military
school at that place, where her son
Emil is a student. We notice that
Emil was one of the boys who re-
ceived honors for his aptitude in
mathematics.

The Catholic ladies were given the
use of St. Peter's merry-go-round for
a couple of hours on Saturday, and
the result was they cleaned up about
\$10 during the time they were in pos-
session. The outfit packed up on
Sunday and pulled out for new fields
the next morning.

The brick work on the two new
buildings at the east end of the bridge
is about completed, and it will not
be long now before the roofs have
been put on to the structures. Many
of the partitions have been put in
place and a considerable part of the
lathing has been done.

—I have bought the J. O. Hebert
studio and will open same in about
one week. You will always get
satisfaction and a No. 1 work at a
reasonable price. Call and see me.
A. H. Frick.

W. H. Fitch, secretary of the Wis-
consin State Cranberry Growers
association, was in the city on Sat-
urday, having, in company with a
number of the other cranberry
growers, come up to meet Prof.
Whitson, who was in the city that
day.

Mike Kane of Vesper was in the
city on Friday on business. Mr.
Kane has been having a great deal
of trouble with his eyesight, and
has been to consult specialists on the
matter, but as yet has not been able
to receive any relief from his afflic-
tion.

Charles Briere was at City Point
one day last week, where he went to
look over the prospects for a cran-
berry crop this year. His marshes
are located about two miles from the
village of City Point and he reports
that the prospects were never better
for a good crop than they are at the
present time.

—Good repairing at a low price at
Krieger's. Tires and casing from \$1
up.

Miss Gezell, who has been the
guest of Miss Carolyn Briere during
the past week, left on Friday for
Stevens Point, where she was going
to visit a short time with friends
before returning to her home at Alma.
Miss Briere left on Saturday for
Madison where she went to attend a
class meeting.

A Nevada bank recently failed for
\$75,000, and when the affairs of the
concern were investigated \$10 was
found in the vault and a \$5 gold
piece was found on the floor where
the place was swept out. There
must have been some very careless
men in that bank to have overlooked
so much money.

—Try a lb. of our 18 to 20c coffee.
Always uniform and fresh. Grand
Rapids Tea and Coffee Co.

Otto J. Len of Aldorf was a busi-
ness visitor in the city on Monday,
and while here he favored the Tri-
bune office with a pleasant call. He
reports that the people out his way
have suffered considerable loss from
the excessive rains, but that it does
not appear to be as serious as is re-
ported from other districts.

—Just received a fine line of beau-
tiful neckwear. Heinemann Merc
Co.

Mr. and Mrs. George Paulus re-
turned Saturday from Chicago where
they had been to consult a specialist
concerning the condition of Mr.
Paulus' health. The trip was a
pretty hard one for Mr. Paulus, but
since his return he has recuperated
considerably and reports that he ex-
pects to be around again in a few
days.

S. N. Whittlesley of Cranmoor
was in the city on Saturday attend-
ing to some business matters. He
reports that the excessive rains have
not damaged the cranberry prospects
any on his place but it has kept the
cranberry men busy in constructing
dams to take care of the excessive
water that has fallen the past few
weeks.

—Call up the brewery and have
them deliver you a case of Home Pride
bottle beer. It is the best that ever
happened.

A. H. Trotter and Joe Duncan of
Rudolph were in the city yesterday
and put in several hours out at the
race track working out their horses
for the fourth where they will enter
in the farmers race and free for all.
Nick Ratelle and Norman Blair of
Rudolph have fast horses and state
that they will be on deck the Fourth.

Renzo Havenor has been suffering
with quite a severe case of blood poi-
soning for several days past. While
playing with a dog about a week ago
the dog's teeth scratched him on the
hand and the place has since devel-
oped into quite a bad wound. He
has been receiving medical treatment
for several days past and hopes to re-
ceive some relief.

—Children and Misses \$1.50 to \$3.25
shoes only \$1.98. Heinemann Merc.
Co.

One way limited rate from Grand
Rapids to Portland, Oregon, Tacoma,
Seattle and Bellingham, Wash., Vi-
ctoria and Vancouver B. C. and North
Pacific coast points in effect June 15
to Sept. 30th 1905. A rate of \$47.50
from Grand Rapids to above named
points is hereby authorized.

For further particulars inquire at
Wis. Central depot. J. W. Hancock,
agent.

Annual Convention Am. Institute
Bank Clerks, Minneapolis, Minn.,
July 20 to 23, 1905. For the above
occasion a rate of one and one-third
fare has been authorized. Certificates
should show the purchase of going
tickets July 17th to 21st inclusive
and be presented for tickets returning
not later than July 26th, 1905. For
further information inquire at Wis
Central depot. J. W. Hancock,
agent.

—Visit our Se counter if you need
a summer dress. Heinemann Merc.
Co.

The river has been on the rampage
again during the last week. Reports
from the north on Sunday were to the
effect that the river at Merrill was
two feet higher than it had been at
any time this spring, and many of
our people jumped to the conclusion
that it was going to be two feet
higher here. This did not prove to
be the case, however, and the raise
only amounted to enough to take it to
the nine foot mark.

Theo. Kersten packed his house-
hold goods and shipped them to
Crivitz, Tuesday where he and his
family will make their future home.
Mr. Kersten was a pioneer of this
county and for years took an active
part in both business and politics.
The unfortunate failure of the Ger-
man Exchange Bank put him out of
touch with his old neighbors and his
interests being north he decided to
move.—Chilton Times.

—Reduction in price of bicycles for
the next 30 days at Krieger's. Old
bicycles taken in exchange.

Last spring no supervisors were
elected in this city, it being held
that the terms of those chosen in
1904 were for two years. The present
legislature, however, has passed a
law which provided that the terms of
supervisors shall be one year, and so
hereafter we will have to hold pri-
mary and regular elections every
year, and the expense will be the
same for the election of six super-
visors as it would be for the entire
city ticket.

A new cross walk of stone has been
put in on Vine street where it crosses
High street, and every man, woman
and child living on the east side of
High street is thankful. Waitless
Balderson states that he has been en-
deavoring to have the city put in a
cross walk there for the past forty
years, and he really feels as if there
was some merit in going after a thing
when you really want it. He is will-
ing to admit, however, that large
bodies move slowly.

—Wood and coal for sale. Also
contractors of cement blocks for side
walks. For prices see Bossert Bros.
& Ebert, telephone 64.

The board of health of Chicago,
sent out notices to meat dealers
everywhere calling their attention
to the new law which forbids the
sale of veal under four weeks old.
Formerly the age of the animal was
judged by its weight—60 pounds
being the supposed weight of a calf
at four weeks but under the new
law the weight is raised 20 pounds.
The information is given to prevent
shippers from sending meats into the
cities that cannot be disposed of.

Lawrence Warren had quiet a run-
away accident on Sunday evening.
He was delivering milk about the
city, when his horse took fright when
near James Chamberlain's place and
coming around the corner at a lively
rate struck the railroad track and
threw Mr. Warren to the ground.
The horse continued down town until
it lost its footing near Getz' restaurant
and came to the pavement. Since
the accident Mr. Warren has been in
a very lame condition, and hardly
able to get about.

Automobile owners should bear in
mind that the new state law passed
by the legislature goes into effect
July 1. The speed limit is twelve
miles an hour in cities and villages
and outside of such places twenty-five
miles an hour. Each autoist must
get a license from the secretary of
state, which costs \$1. He will receive
a certificate and number for his
machine. The driver of a machine
must, when a signal of distress is
given by a horse owner, stop his
machine, and if requested, go to the
assistance of the horseman. The
law enforces all local regulations.

—A fine line of belts in Alice blue,
black, brown, navy and white just
received. Heinemann Merc. Co.

Stevens Point Journal.—The work
of rebuilding the Rossier mill, at
Springville, which was partially
wrecked by the flood, has been com-
menced. A concrete dam will take
the place of the one that was washed
out. The new dam will be faced on
the upper or east side by a concrete
wall, filled in behind with earth to
form a road way. The concrete will
be extended clear across from the
north shore to the present spillway
which is already solid masonry. Two
new steel flumes will be laid there
under the dam to the mill. The ex-
pense will be borne jointly by the
mill owners, the town of Plover and
Portage county.

Wisconsin Odd Fellowship by its
action last week at the closing session
of the grand lodge in Milwaukee
subverted the great central charity it
has been fostering for fifteen years
by appropriating \$30,000 for the Odd
Fellows' home at Green Bay. The
home has been overcrowded for a
year, and after fifteen years of exis-
tence an increase of its capacity has
become necessary. The appropriation
is to be raised by an increase in the
assessment of all active members at
the end of the present fiscal year,
which ends June 30. The money
will become available on Jan. 1,
1906, and the building of the addi-
tion to the home will begin early
in the new year.

Our New One

BEATS ALL.
